The high level of difficulty and slow pace make for a very frustrating experience. Not worth \$18 in my opinion.

One of the biggest annoyances is the size of the enemies. The game is hard enough as it is, so why make it more frustrating by having us shoot tiny spiders and wasps? I obviously didn't explore every bit of content this game has to offer, but it was enough for me to say no thanks.. This game seemed interesting since the user could incorporate their own music into it, but it is very bland. It's definitely a time-waster, but in a bad way. For achievement hunters, it doesn't take long to get all the achievements but it's basically just constant mindless grinding. I think the only good part about the game is that you can play your own music with it... but you can always just play your own music in the background of a better game. Not worth it.. After working as a cashier for a couple of years, I quit and promised myself to never, EVER, go through the horror of dealing with annoying customers again. I did miss the satisfying beeps products being scanned... so I paid money to do my old job without actually getting paid for it. At least now I can swear at those moody turds without the fear of getting fired.. I liked, pretty much everything about the game, but I disliked that in a previous update, it changed the whole game and removed some features and special effects from the game, then how it was before. I recommend to play it anyways. What I mean by graphical effects, I mean that they name the "Urban Metaphor" drop Lazer, it doesn't look as cool as it did in a previous update.. Okay, this game is actually fun. Some moments I didn't enjoy but overall, it was enjoyable. Now to list the upsides and downsides to this game:

- +Unique weapons
- +Interesting flashbacks
- +Mini-guns

- Some bosses are impossible to figure out
- Grenades are hard to throw decently because there's no arc shown on how you're throwing it
- Game is short, beat it in a day
- Ending is lacking

- +Replay for more info
- +Interesting twist of events
- +Are you the good guys or the bad guys?

Overall, 8/10.

I enjoyed this game a LOT.

I was looking for a PC game to scratch the tabletop wargame itch. I'm a fan of Epic 40k, Flames of War, etc, but I don't have much time to play with friends. I searched high and low for the closest thing I could find to a tabletop miniatures game, and Battle Academy is what I settled on.

Glad I did. It's a great game. Tons of fun to play both the single player campaign and against other players in online multiplayer. The PBEM multiplayer interface is easy and seamless. Play your turn whenever you have time.

I just love everything about this game. I paid full price for it and have no regrets. If you're looking for a close approximation to miniature wargaming on your PC, buy this.. I really wanted to like and recommend this game, but I simply can't do it. The graphics are good looking, there're some cool songs and sound effects, the overall gameplay is acceptable, with some power-ups and everything and there's even a story as a background to keep you engaged. So, what's the problem?

The random premise of the game, combined with some relentless conditions that have to be fulfilled in order to advance, turns the experience that it was supposed to be fulfilling into something completely stressful. In other words, if you're expecting to play something casual and relaxing, you're gonna be extremely disappointed.

If you'd like my advice, save your money, or better yet, save your time: Don't give this one a try.. would kms again !. buggy as hell. <https://www.youtube.com/watch?v=7LZjllc1MHM>. Got all the DLC from a bundle, they add a lot more content.. Amazing game, amazing [REDACTED]. Love the trippy ending and everything else 11/10 Robodoge.. Highschool Possession

Highschool Possession is a Visual Novel [VN] done by Dharker Studio. Highschool Possession is a VN about a guy who wakes up in the bodies of his two female friends [one a day]. He always held his friends in the perfect status, that nothing in their life could trouble them. As he's in their bodies, he learns about the things each of his friends go through, one being bullied and the other depressed and suicidal.

The main character in these two girls bodies and experiences the things they do, able to read about what "HE" did in their body, through their diary the next time he returns. He messes things up for both of the girls, but in the end pulls through for them both, helping them through their situations. The VN itself is very short, very few choices and doesn't branch or change the story much. It takes about 2-3 hours to complete and get the achievements.

I can recommend this if you get it on sale, or in a bundle.. A 5 minute free Screen Saver?. I get to meme a cat for his pirate-like voice

I get to Megido-Flame-Wheel-Loop my opponents to oblivion

**BUT MOST IMPORTANTLY**

I get to use my blood to corner players into walls and kill them by throwing bloody fidget spinners or tebagging them to death after blood-freezing them.
