Frogwares team. **The Sinking City and Epic Games store**:

Greetings everyone,

As announced by Epic Games a few moments ago at GDC, The Sinking City will be available on the Epic Games store for a limited time before its release on Steam. We've made a Q&A in order to be transparent as transparent with you as possible about our decision.

Where will I be able to purchase and play The Sinking City?. **The Sinking City - Animations Update**:

Hey guys,

Today we want to show you the brand new animations that our team has been working on.

We know that a lot of you have asked about the way our character walks and runs, and rest assured, those animations were only temporary.

Check out the update to see what has changed. We also threw in some behind the scenes shots, because they are so darn cool :D
